

# JAYAVARAPU SIVA TEJACHARY

## AI/ML Engineer

☎ +91-9866862016 ✉ [j.shivachary@gmail.com](mailto:j.shivachary@gmail.com) 🔗 [linkedin.com/in/jayavarapu-siva-tejachary](https://www.linkedin.com/in/jayavarapu-siva-tejachary)

### Summary

AI/ML Engineer with 2+ years of experience in building scalable AI systems using NLP, LLMs (OpenAI, Gemini), and Retrieval-Augmented Generation (RAG). Experienced in developing real-time applications involving speech-to-text, computer vision, and backend APIs using Python and FastAPI. Skilled in designing end-to-end AI pipelines, including document-based Q&A and intelligent automation systems. Passionate about solving real-world business problems using data-driven and AI-powered solutions.

### Skills

**Programming & Backend:** Python, FastAPI, REST APIs

**Machine Learning & AI:** Supervised Learning, Classification, UnSupervised Learning, NLP, NER, OCR, TF-IDF, Embeddings

**Generative AI & LLMs:** LLMs, Transformers, Gemini, RAG, Prompt Engineering

**Agentic AI & Frameworks:** LangChain, AI Pipelines

**Data & Databases:** MySql, PostgreSQL, JSON handling

**System Design & Processing:** Real-time processing, Document parsing, Data validation, Pipeline development

**Tools & Platforms:** Git, GitHub, Docker, Azure, Jupyter Notebook

### Experience

#### AI/ML Engineer

May 2024 – Present

*Avataa Solution Pvt Ltd*

- Developed AI-based solutions using NLP, LLMs, and data processing techniques to solve business problems.
- Built backend APIs using FastAPI to support real-time AI applications involving speech and image data.
- Worked on data preprocessing, feature engineering, and model development for predictive analytics.
- Collaborated with cross-functional teams to deliver end-to-end AI and data solutions.

### Projects

#### Enterprise Document AI & Compliance Automation

Aug 2024 – Present

Tech: FastAPI, Python, PostgreSQL, Azure OCR, NER, Gemini LLM

- Built a backend system to process and validate large volumes of documents automatically.
- Developed a pipeline to extract key data (invoice details, product info) from PDFs using OCR and NLP techniques.
- Created a system to compare and match data across multiple documents to ensure accuracy and consistency.
- Integrated Gemini LLM to generate simple, human-readable summaries of documents.
- Implemented ML-based logic to group document pages correctly using similarity and metadata.
- Enabled real-time processing using PostgreSQL event-driven features (NOTIFY/LISTEN).
- Provided structured JSON outputs and dashboards for downstream usage.
- Reduced manual document review effort by **70–85%**.

#### AI Resume Screening System

July 2024 – Aug 2024

Tech: Python, NLP, FastAPI, Transformers

- Developed an AI-based system to analyze and rank **500+ resumes** using NLP techniques.
- Used TF-IDF and embeddings to achieve **85%+ matching accuracy**.
- Built a ranking system to shortlist top **10–20% candidates**, reducing manual effort by **60%**.
- Created FastAPI APIs to process **100+ resumes/day** in real-time.

### Awards & Certifications

- **Data Science & Machine Learning – Cranes Varsity, Bengaluru:** Trained in Python, RDBMS, Exploratory Data Analysis (EDA), and core Machine Learning techniques.
- **Top 5 in College Hackathon – 2024:** Ranked among top 5 out of 250+ participants by solving real-world problem statements.

### Education

#### B.Tech in Computer Science and Engineering

Sep 2020 – Apr 2024

*Chalapathi Institute of Engineering and Technology, Guntur, Andhra Pradesh*

*CGPA: 7.9 / 10*
